SUMMARY

Detail-oriented and adaptable professional with experience in web development, technical support, and system maintenance, along with strong transferable skills in problem-solving, communication, teamwork, and attention to detail. Proficient in front-end technologies including HTML, CSS, and JavaScript, with working knowledge of back-end development using C#, MySQL, and SQL Server. Experienced in developing web applications, troubleshooting hardware and software issues, and supporting end users. A quick learner who is flexible, dependable, and eager to contribute to a wide range of roles, including administrative, customer service, operations, support, and technology-related positions.

PROJECTS AND EXPERIENCE

Datascope Communication Phils Incorporated

Web Developer, 2025 – Present

- Redesigned and enhanced the Document Management System (DMS) with a focus on user experience and interface clarity.
- Developed responsive front-end components using HTML, CSS, and JavaScript.
- Collaborated on improving system workflows for more intuitive document navigation and interaction.
- Optimized UI performance while integrating with back-end systems using C# and SQL.

Statefields School Incorporated (IT Department)

IT Technician, 2024 – 2025

- Provided user-focused technical support to improve overall system usability and efficiency.
- Assisted users in resolving hardware and software issues with clear communication and guidance.
- Maintained desktop systems to ensure smooth and uninterrupted user experience.
- Supported device setup and configuration, enhancing accessibility for end-users.

Statefields School Incorporated (IT Department)

Junior Programmer, 2024

- Managed the front-end of the school's portal using C# ASPX.
- Redesigned the Login System design of the Student Portal using C#, HTML, and CSS.
- Handled the database of the student portal when it comes to the grading system using MySQL.
- Monitored and tested the use of the Student-Teacher Evaluation System using C#.

Knowles Training Institute

IT Intern, 2024

- Developed user-focused front-end interfaces to improve overall website usability and accessibility.
- Implemented a structured login interface aligned with user experience best practices.
- Assisted in deploying and optimizing the website to ensure smooth user interaction.
